FRANKLIN COUNTY CONVENTION FACILITIES AUTHORITY

REQUEST FOR QUALIFICATIONS:
Engineering and Design Services for Mechanical, Electrical & Plumbing
System Upgrades at the Greater Columbus Convention Center

Qualifications to provide engineering and design services for mechanical, electrical, and plumbing system upgrades at the Greater Columbus Convention Center will be received by the Franklin County Convention Facilities Authority (FCCFA) until **Monday, January 23, 2023 at 4:00 PM EST**. Sealed qualifications (one original and ten copies) are to be submitted to the FCCFA offices located at the Greater Columbus Convention Center, 400 North High Street, 4th Floor, Columbus, Ohio 43215.

The FCCFA is the owner/developer of the Greater Columbus Convention Center, the Hilton Columbus Downtown Hotel, Nationwide Arena, and four parking garages, all located in downtown Columbus, Ohio. Established by the Franklin County Commissioners in July 1988 pursuant to Chapter 351 of the Ohio Revised Code, the FCCFA is a special governmental unit governed by an eleven-member board appointed by the Franklin County Commissioners, Mayor of Columbus, and suburban mayors.

The purpose of this request for qualifications (RFQ) is to select a professional firm or firms who are most qualified to provide comprehensive engineering and design services for the completion of several mechanical, electrical, and plumbing (MEP) related projects at the Greater Columbus Convention Center. The FCCFA is seeking a firm who has experience with MEP projects that are similar in size and scope to the FCCFA's proposed projects. Most qualified will be determined by, but not limited to; the competence/ability of the firm to provide requested services, availability of resources to meet the requirements of the RFQ, past performance/related experience of the firm and the proposed approach of the firm to the MEP system upgrades. To be considered for this RFQ, submittals should include, but not be limited to; a description of the firm, proposed staffing for the project along with resumes and credentials, information on the firm's engineering/design experience on projects that are similar in size, scope and function to the project being proposed by the FCCFA (references included), and a discussion of the firm's proposed approach towards the design of the MEP systems upgrade project.

A copy of the complete request for qualifications can be obtained from the FCCFA offices. All requests for copies of the RFQ and questions regarding the RFQ should be directed to Jordan Edmonds at jedmonds@fccfa.org or 614-827-2811.

the FCCFA reserves the sole right to (1) evaluate the qualifications submitted; (2) waive any irregularities therein; (3) select candidates for the submittal of more detailed qualifications; (4) accept any submittal or portion of a submittal; and/or (5) reject any or all responses to the RFQ, should it be deemed in the FCCFA's best interest to do so. This RFQ is not intended to be an offer, contract, obligation, or commitment of any kind.
